TEN MEN CONTROL TOBACCO TRADE OF UNITED STATES

Have Gained Their Hold on Trade by Unscrupulous Use of Money.

Have Deceived the Public and Resorter to All Sorts of Schemes.

Report of Herbert Knox Smith, Chief o Bureau of Corporations Tells th Method Employed by the Trust t Stifle Competition.

(Special from United Press.) Washington, D. C., Feb. 25 .- Ten men absolutely control the tobacco and snuff business of this continent, with the exception of the manufacture of cigars, and the colossal trust which they manage has within the last few years throttled almost every vestige of real competition. They have gained their hold on the trade by the unscrupulous use of vast sums of money, by deceiving the public, by resorting to all manner of schemes, and by the fiercest price-cutting that the commercial world has ever known.

These are, in brief, the conclusions reached by Herbert Knox Smith, Chief of the Bureau of Corporations, the trust-probing end of the Department of Commerce and Labor. Mr. Smith's second installment of his report on the Tobacco Industry was made public to-day, and in it he deals with the organization of the combination, its degree of control, its growth, and its present overtowering position in the trade. In future chapters of his story, he writes the President, he will handle the subjects of prices, profits, and competitive methods.

One of the favorite plans of the Trust Mr. Smith says, was to buy up an independent plant that had made its reputation on its anti-trust record, its fair dealing with union labor, or its time-honored squareness to its customers, and to operate it still as an "independent" or "anti-trust" concern. LAWYER CLARK HEARING BEFORE JUDIC-IARY COMMITTEE.

The Judiciary Committee held a field day yesterday on the matter of judgeship contests, opening with the one It included an attack upon the House chairman of the committee hearing it and, incidentally, involved a number of other persons.

Four resolutions appeared from Greenwich, one set naming Charles D. Burnes and Fred A. Hubbard judge and deputy judge respectively and the other W. J. Ferris and Jeremiah Tierney. Judge Tierney has been the deputy for several years, but he is not named now by the supporters of Judge Judge James F. Walsh appeared for

Judge Burnes and filed petitions in behalf of their appointment signed by the members of the Republican town committee, by all the resident lawyers except the four candidates and by every official in Greenwich including the policemen and constables. Lawyer Russell P. Clark said that he objected to the reappointment of Judge Burnes because the latter had appeared as counsel in civil and criminal castance Mr. Clark said that the nonsupport case against John Smith began in the borough court on July 1, 1907, after great reluctance on the part of Prosecuting Attorney H. B. White to begin the case, the latter telling Mrs. Smith that Judge Burnes was counsel for Smith. Finally he agreed to have Smith in court on a certain Monday. The complainant was in court that morning and Judge Burnes appeared. His client did not, but he said that Smith was paroled in his care. As a matter of fact Smith had gone to Illinois and never appeared in court and the warrant for his arrest was not character. It is that of a rather blou-lous party named Steve Daley, who is lous party named Steve Daley, who is Judge Tierney signed it. The woman was never able to secure help from the court or the town. Later her husband sent for her and the two are now living together in Greenwich.

Mr. Clark then cited six civil suits in which he said Judge Burnes appeared as counsel in his own court and then he said that he further objected to the judge because he had allowed Judge Walsh to appear as counsel in cases which were liable to appear before him in the criminal court of common pleas on appeal.

"That is untrue and you know it untrue!" shouted Judge Walsh. Judge Walsh then replied to Mr. Clark, saying the latter had talked for sixty-five minutes, making accusations and the Elks. A collation was served, which he knew were false and untrue; Henry Reilly contributed to the enjoyif they were not he would have brought the clerk of the court and the tions upon the piano in his inimitable
